PUBLISHED BY THE SENIOR CLASS  
OF THE BELLEVILLE TOWNSHIP  
HIGH SCHOOL, BELLEVILLE, ILLI-  
NOIS. VOLUME 23.

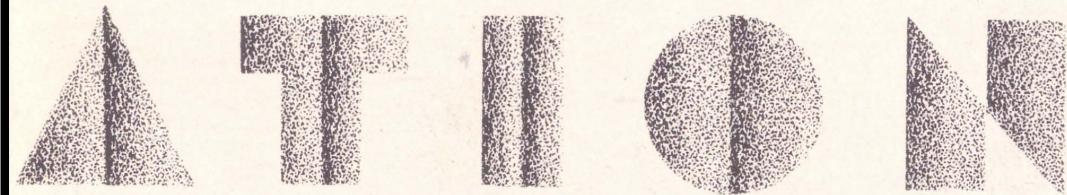

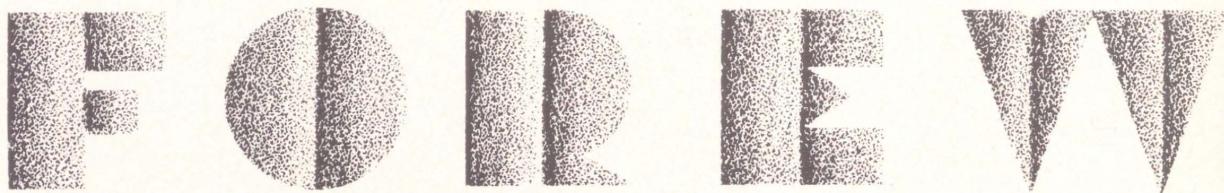

To one who believes that art is not  
only of the hand, but also of the heart;  
To one who inspires those about her  
to do finer things;  
To one who has a friendly smile and  
an encouraging word for all;  
To one who lives to make our life more  
beautiful, we proudly dedicate this  
book so that all, both present and  
future, shall know and appreciate her  
and what she has done.

JEAN SNYDER, B. Ed.

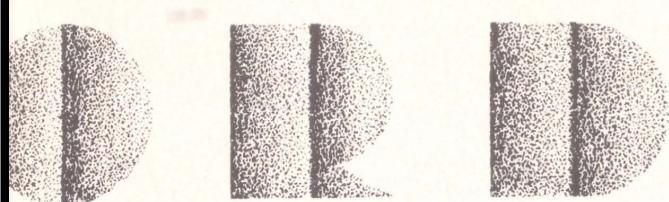

Before we shall, in cap and gown, make our formal Commencement bow, and say our last word and farewells, we would in this volume, say good-bye to the dear High School world and affectionately present to it our last efforts. Unto each of our under-classmates we have endeavored to deal out a fair portion. Our experience has proven that a life under the shadow of these buildings may be fully as profitable as we make it. We have tried to live up to their traditions. If we have added no great lustre to their scholarship, we ask only to be forgiven and not taken as a model by our successors.

Changes in the world are rapid and frequent. One thing the passing years do not alter—namely, the memories of close friendships, inspiring occupations in the class rooms, and on the athletic field, with its triumphs and defeats. The sweet remembrances will linger, and often bring us hither.

# PRINCIPAL

The greatest possession any one individual has is his life. This he has here but once and for a brief and limited time. An individual may make the most of it or mar it completely. The whole individual must grow. Growth means enlargement and development for the individual of body, mind, and spirit—development of the whole to the utmost. This growth results from the directed and guided efforts of educative agencies and institutions together with the willing co-operation of the individual and his determination to attain the utmost in wholesome development by means of the facilities at hand and his force of mind. Hills and high water never will stop one fired with a determination to attain the highest good. This is the aim of every student. Make the most of life. Fill it full of usefulness and service. Determine to win with fullness of joy and happiness.

## ENGLISH DEPARTMENT

ORENA FARMER  
(Department Head)

Nothing is more important for a rich life than to be able to use one's native tongue effectively; consequently, four years of English are required for graduation.

The English curriculum is organized on the basic principle that experience is the best of all schools. As far as possible actual situations are presented and used in the classroom. Written work and speech are planned to parallel life situations. Reading on the other hand, is in itself experience at first hand. Further, it presents vicariously experience unsuited to the classroom but such as must be faced later. The objective of the department is to integrate the intellectual activities with life outside school.

The English curriculum, besides the regular courses, has several that are specialized:

English VII, public speaking;  
English VI, junior journalism;  
English VII, journalism;  
English VIII, college preparatory composition.

## MATHEMATICS DEPARTMENT

E. G. HEXTOR  
(Department Head)

The place which mathematics should have in the educational program is to be determined by appraising the ways it assists in attaining the following objectives: the ability to think clearly; the ability to use information, concepts, and general principles; the ability to use fundamental skills; the development of desirable attitudes, and the development of interests and appreciation. It is very essential to consider how mathematics has assisted in the development of our civilization and the extent to which we now depend upon it. So old are some of its uses and so deeply are they imbedded in our culture, that they are in

## GENERAL REGULATIONS

Curricula are arranged in the three divisions to facilitate choice of majors. Each curriculum provides for a major in addition to English, which is required of all students for four years and provides a major in the curricula of all divisions.

A student may transfer at the end of a semester from one curriculum to another in the same division or from a curriculum of one division to a curriculum of another division. The latter change may be made, but often with a loss of credits because of the necessary sequence of subjects. Before making a change from one division to that of another, a student should consult his adviser, class sponsor, or the principal, as well as secure the approval of his parents.

English 6 is divided into two sections. Section I is the regular course of English, literature and rhetoric. Section II is elementary journalism and literature. Both sections carry equal credit.

English 7 is divided into three sections. Section I is regular English, rhetoric and literature. Section II is journalism and literature. Section III is public speaking and literature. All parts offer the same credit.

English 8 is divided into two sections. Section I is the regular English, rhetoric and literature. Section II is a special college preparatory course. It emphasizes grammatical and rhetorical construction. All college preparatory students should take this course.

Algebra and geometry are prerequisite to anyone who takes chemistry or physics. No language can be taken for less than two years. No history can be taken for less than one year, except English History, or industrial history which is given for one semester only.

A student must carry at least six credits, three units in each of the successive years, to elect a course or courses in any previous semester or years.

## ACADEMIC DIVISION

English is required of all students for four years, and is provided for in all curricula. American History and civics are required of all students, third and fourth years, and biology the first year. A minimum of two years of mathematics is required for all curricula of this division except the general curriculum. All curricula in the Academic Division are planned to meet all entrance requirements of colleges and universities. Students

should consult early with their class advisers, educational counsellors, or the principal, relative to the admission requirements of any particular college or university.

The Classical Curriculum provides four years of work in Latin; the modern language curriculum provides three years German, three of French, and two of Spanish. A student may take two years of German and two of French, or two of German and two of Spanish, or two of French and two of Spanish. No credit will be given in any language for less than two years work. Colleges and universities do not accept less and many require more. A major in language is three years in the same language.

The Scientific Curriculum stresses science and mathematics and provides enough languages and social studies to meet the admission requirements of institutions of higher learning. Not less than three years of mathematics can be taken in this curriculum. Mathematics may be elective the fourth year. Science must be taken for three years.

The Social Studies Curriculum provides a major in history and a minor in the social sciences. Taken with languages and mathematics this curriculum will meet general college admission requirements.

Each of these curricula stress a particular field of interest as a major. A student following up this field in college or university will find his high school preparation very helpful.

A student must have at least two majors and two minors and may at times need three majors for some colleges.

A major is three years in the same subject; a minor is two years.

danger of being taken for granted and forgotten. On the other hand, the subject is at present finding employment in new ways which may not have come to the attention of people not directly concerned with mathematics.

The department of Mathematics offers a full four-year course as follows: Elementary Algebra I and II; Plane Geometry III and IV; Advanced Algebra V; Solid Geometry VI; Trigonometry VII and College Algebra VIII.

#### LATIN DEPARTMENT

PEARL JOHNSON  
(Department Head)

The Latin Department of the Belleville Township High School offers a four-year course. In the first year the fundamental and basic forms of the language are studied and practiced by means of sentences and short reading lessons which are based on events of Roman history.

These readings lead up to Caesar's Commentaries in the second year. The third year is spent in translating Cicero's Orations and studying the history of the period of this orator's life. The fourth year is devoted to the reading of Virgil's Aeneid. Throughout the course one-fifth of the time is devoted to composition work.

In the Latin Club, which meets once a month, vocabulary, Roman customs, and Grammatical forms are studied, but in the more informal manner by means of the cross-word puzzles, informal discussion, games, and short plays.

#### MODERN LANGUAGE DEPARTMENT

H. A. KANZLER  
(Department Head)

The Modern Language Department offers three years of French, two years of Spanish, and three years of German. In the first year, the fundamentals of the

grammar of the language are emphasized, while in the second year, more time is given to reading. The primary aim of the course is to impart a reading knowledge, while the ability to speak and write the language is taught as a secondary aim.

In the French and Spanish classes, the new language, Literature, and Life series of texts is being used, which contains grammar, reading, and essays in English concerning the foreign country and its people. Personal correspondence is carried on in the advanced classes, with foreign students. In these ways, a third aim is fostered, that of imparting knowledge of the foreign country, past and present, and inspiring an interest in the life and characteristics of its people.

#### PHYSICAL SCIENCE DEPARTMENT

W. H. CAMPBELL  
(Department Head)

The purpose of this department is to introduce the students to the workings of the natural forces so that they may better appreciate the world in which they live.

Physiography is offered during the second year. A well-equipped laboratory makes it possible to study the materials of the earth's crust, and the changes wrought by the forces of nature in forming the natural features of the surface of the earth. A study is also made of weather conditions, records being kept of temperature, barometric pressures, etc., including the conditions that lead to rainfall and even those that favor hurricanes.

Chemistry may be taken during the Junior year. One year of algebra is a prerequisite. The science is taught so as to give a knowledge of the technical language, the formulas, and the laboratory techniques of chemistry; thus giving a thorough preparation for those who may continue the study of chemistry in college. But for those who may not continue the study of chemistry, frequent reference is made to the services of chemistry to society through its contribu-

tion to health, agriculture and industry.

Physics is given during the Senior year. Algebra and plane geometry are required. A thorough and practical knowledge of the principles of simple machines, of optics, and of electricity is taught. The applications of these principles so commonly used in the homes today is stressed. With so much electrical apparatus in use, it would be quite an advantage for the homemaker to have a better understanding of the machines she is using. The laboratory is well equipped for this purpose.

#### BIOLOGY DEPARTMENT

F. J. FRIEDLI  
(Department Head)

The Biology department offers courses in biology, botany, and zoology. The course in biology is required of all freshmen and botany elective to sophomores and zoology to juniors and seniors. Each course extends throughout the year.

These biological subjects are of great cultural value as well as of wide practical application. There is no person who does not come in contact with them daily in some of their phases. The home, the farm, the wayside, the wood, the lake, the stream, and even the air contain living materials which are both interesting and instructive. Our furniture, our food, our clothing are largely of a biological nature. Our gardens, our lawns, our field crops, our industries, and our health are indispensable adjuncts of everyday life. Not only do they possess cultural and aesthetic values, but at the same time they represent much wealth. So significant and universal are the applications of biology in education and life that a study of these great branches of science has unusual importance.

SOCIAL SCIENCE  
ALVIN NEBELSICK  
(Department Head)

The social studies include those courses whose sub-

ject matter relates directly to the organization and the development of human society, and to man as a member of social groups.

Their purpose is to enable us to realize what it means to live in society, and to appreciate how people have and do live together, and to understand the conditions so necessary to living together well, and that in the end we may all become better citizens.

### COMMERCIAL DEPARTMENT

JAMES E. TRABUE  
(Department Head)

The Commercial Department is faced with a two-fold responsibility in education; first, to offer the students a fundamental vocational training that will enable them to support themselves according to a good standard of living; secondly, to give the students the social and economic background to develop a knowledge of social conditions and needs, a consciousness of belonging to a cooperative society, and a sense of responsibility to that society.

To fulfill these obligations a four year curriculum is planned in which vocational courses and social sciences are offered. The vocational work is as follows: two semesters of general business training nine semesters of secretarial studies including office practice and advanced transcript, five semesters of bookkeeping including cost accounting and fundamental principles of auditing; two semesters of fundamental business arithmetic; one semester each of salesmanship and advertising.

The social sciences offered include one semester's work in each of the following subjects: Social Problems, Commercial Geography, Commercial Law.

### LIBRARY DEPARTMENT

JESSELYN GRIEVE  
(Department Head)

For a fundamental knowledge of the arts and sciences all of us depend largely upon books. The High School Library has over six thousand books and subscribes for forty-three periodicals.

### COMMERCIAL DIVISION

Three curricula are provided in this division. The Commercial Curriculum provides a major in accounting. The Secretarial Curriculum majors in stenography and typing, transcript and office training which later provides for filing. Transcript offers abundant exercises in dictation, stressing speed and accuracy.

The General Business Curriculum is intended for those students who plan to prepare for general office work.

Students should always consult their advisers, class sponsors, or the principal in all matters pertaining to their studies.

While many courses in these curricula are acceptable for admission to colleges and universities, these curricula are not designed for college entrance. They plan to give the student a training that will help fit himself into business life. The four year curricula gives a student a well rounded training and no one should be satisfied with less.

### MUSIC DEPARTMENT

E. H. PETERS

C. FRITZ

(Department Heads)

Edwin H. Peters directs the band, orchestra, clarinet, saxaphone, French horn, flute, brass and string quartets. This year a new violin quartet was organized. The various quartets have brought State and National honors to our school by winning contests in their respective groups. Eighteen band and orchestra members took first place in the District Solo Contest held at Belleville, March 11.

The band plays at all of the home football games, parades, picnics, and various civic functions. In addition to this the band competes in the Class "A" division of the Illinois School Band Contest, plays in assembly programs and presents a concert.

The orchestra presents several programs during the year including the operetta score and also furnishes the music for the school plays. Several members are selected each year to play in the Illinois All-State Orchestra.

Musical courses taught by Mr. Peters are: Music Appreciation, Harmony, Theory, and History of Music.

The department presented a Musical December 13, which was a tremendous success.

Miss Fritz teaches Voice and Piano, directs the glee clubs and A Cappella Choir, and trains the girls' sextet and boys' quartet.

The A Cappella Choir, a new organization in our school this year, has sung in various churches, and for numerous clubs throughout the city, and gave a concert in the high school auditorium on May 19th.

The glee clubs have been very active this year.

They participated in the Musical which was given by the combined music department on December 13. Last November, nine members of the glee clubs were selected to sing in the All-State Chorus which met at the University of Illinois. On April 6, eighty-five of the glee club members sang in the Southwestern Illinois Choral Festival which was directed by Noble Cain, and held in Edwardsville.

The sextet and quartet have filled many singing engagements throughout Belleville during the entire school year, having sung for churches, clubs, and civic affairs.

This department presented on April 13 and 14, the operetta "Love Goes South". The combined glee clubs formed the singing chorus for this production.

#### ART DEPARTMENT

JEAN SNYDER  
(Department Head)

The study of art is intended primarily to raise the standard of taste in the average pupil and to discover and develop talent in the gifted student. Design—the basis of any art—is taught through a variety of media: metals, wood, watercolor, pencil, charcoal, clay, plaster, leather, tempera.

The art department now offers four courses: Introduction to Art, Drawing, Painting and Illustration, and Crafts. Introduction to Art is a prerequisite to any of the other three. A student wishing to major in art may take a third year of advanced work in any course he chooses.

Besides the regular class work the art classes design and paint scenery for some of the plays, design cuts for the school paper, and make posters and program covers for school functions.

#### INDUSTRIAL DIVISION

This division of curricula lends itself to the interest of those students whose interest lies in doing things with hand and mind. Some courses of each curriculum have credit for college admission but none of these curricula are planned to furnish admission to institutions of higher learning. Applied music (band, orchestra, instrumentals, voice) are a part of the fine arts curriculum.

work in mechanical drawing, two years work in machine shops, three years work in wood shops, one and one-half years work in auto mechanics. The department as a whole has the following aims: to teach the work on a problem solving basis; to promote industry, cooperation and the worthy use of leisure time outside of school hours; recognition of value in buying and insight into allied trades and knowledge of trade products.

The mechanical drawing section offers work in the fundamentals of drawing, lettering and sheet metal development in the first year. The third semester consists of machine design. Architectural fundamentals and design are taught during the fourth semester. The fifth semester consists of architectural drawing, house plans, elevation, and perspectives. The sixth semester of drawing deals with planning and estimating.

The wood shop offers beginning bench work the first semester; advanced bench work, turning, band saw, mortiser and belt sander work the second semester. The third and fourth semester consists of mill work. Wood pattern making and shop foremanship is taught the fifth and sixth semesters.

The machine shop offers two years work which includes bent metal work, use of the drill press, power hack saw, lathe, shaper, milling machine and planer. The work of the first semester is principally lathe work. The difficulty of the work advances from one piece tools the first semester to small machines the fourth semester.

One and one-half years work is offered in auto mechanics, which includes a study of the construction, care, operation, and repair of the modern automobile.

## HOME ECONOMICS

CLARA B. NEUBAUER  
(Department Head)

The Home Economic courses offered in B. T. H. S. are planned to provide training in the various activities of home life needed as a foundation to good home-making and an introduction to courses a student may

be interested in studying in college. Home Economics in our high schools and colleges no longer consist of just cooking and sewing. It provides courses needed to meet the growing demand in professional and commercial field for Home Economics trained women as well as for the Homemaking profession.

The Homemaking V includes study of the home and family, home management, study of wise expenditure of the income, relation of home to community, child care and development.

Homemaking VI includes planning and furnishing the home, care of the home, planning the wise use of time, health and care of sick in the home, education and training of little children, our responsibility to all children.

Foods I includes a study of the composition, selection and preparation of foods, planning and serving breakfast and luncheons.

Foods II includes a study of food preservation, planning and serving dinners, marketing and special diets in relation to health.

Foods III is a course in meal planning, table service, and etiquette.

Foods IV is a course in dietetics and experimentation.

Clothing I includes the study of the selection and care of sewing equipment, fundamental processes for all sewing, personal grooming, a study of fibers and qualities of materials, planning, selection and construction of simple undergarments and dresses, and care and repair of garments.

Clothing II includes the study of design and color in relation to planning and selection of garments, simple tailoring, remodeling and construction of children's garments.

Clothing III includes a study of principles of design in relation to dress, hygienic principles underlying dress, and the economic aspects of dress. Also included are: making of a handsome garment or article for the home, selection of household textile articles, make over garments, afternoon and tailored garments.

Clothing IV includes the study of pattern making and fitting, simple costume designing, dyeing of materials, study of selection of furs, textile fabrics and laces, study of problems in consumer and other cur-

## PHYSICAL EDUCATION

The law makes it mandatory for a Board of Education to provide for physical education. So, under the rules of the Board, effected September 1, 1933, every student is required to take physical education, unless excused by the school physician. Boys should take not less than three hours per week and girls not less than two hours per week. Physical education is a part of every curriculum in each of the three divisions.

The work of physical education for each semester is to be offered in three parts. Part one takes up gymnastics and corrective exercises; part two—instruction in physiology, health education, and first aid; part three—is given over to recreation in which every student selects that form of activity in the form of games from which he gets the greatest pleasure. Games are not played only to win, while that is an objective, yet the pleasure and satisfaction achieved in the exercise is a paramount consideration. Hence, intramural athletics for all students are practiced to the point where they culminate in the representative high school teams.

## PHYSICAL EDUCATION DEPARTMENT

ALICE KIRCHER  
EDGAR GUNDERSON  
(Department Heads)

Physical Education is the systematic development of bodily health. Particularly significant to the success of the B. T. H. S. physical education program is the departmental division into boys and girls activities.

This program is achieved by scientific supervision of exercises, sports, and rhythmic activities, all of which breeds a healthy mind and body, develops muscular coordination, physical grace, and tends leadership and fair play.

Yearly physical and medical examinations are given to every pupil, and he is shown the value of such periodic examinations so that he will willingly continue the practice. These examinations are placed at the beginning of the Sophomore, Junior, and Senior years.

## AGRICULTURE DEPARTMENT

L. F. LENTZ  
(Department Head)

The aim of vocational agriculture is to prepare boys for the work on the farm. The vocational law sets up certain requirements for the local schools, which in agriculture are sane and practical. Each boy enrolled must carry on six months of farm practice under the supervision and instructions of the teacher of agriculture. Work is done, records are kept, studies are made, and instruction is given, both in school and out, based upon the project.

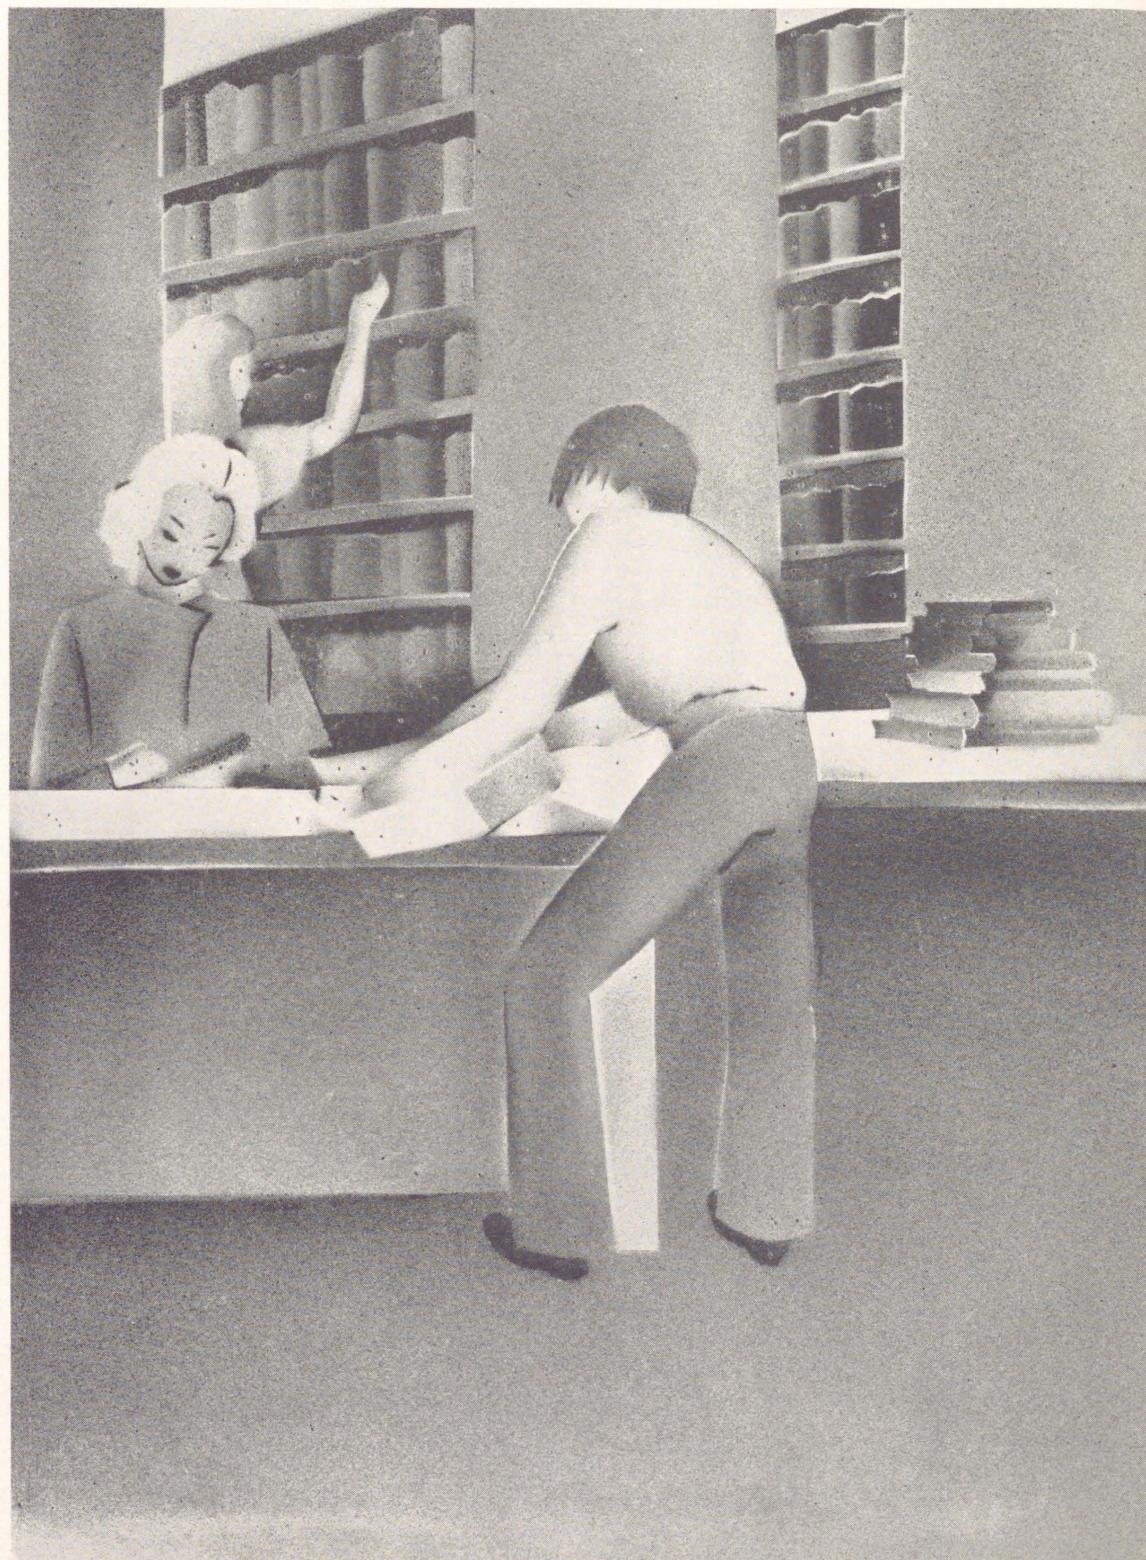

This department has a room equipped primarily for instruction in agriculture. It has a "farm shop" for teaching of "farm mechanics". Farm Mechanics work includes all of the unspecialized mechanical activities that should be done on the average farm such as farm woodwork, home conveniences, forge work, soldering, harness repair, rope work, and farm machinery.

The school offers three years of agriculture. One of soils, crops and horticulture, one in animal husbandry and a year in farm shops.

## THOUGHTS OF A SENIOR

I came not to learn\* . . . but to live  
And I've learned to live so much better  
A great deal more a go-getter  
And thus so much more to give.

I've complained about the men  
I've called the women dumb  
But now I know I'd come  
Back here if I could again.

I've wasted my time and theirs  
Who have tried so hard with me  
But not until now can I see  
I'm a fool caught unawares.

Too, someone told me he'd say  
At the end of my four years  
"I told you there'd be tears."  
But with me that wasn't the way.

There aren't any tears for me now  
I've ben taught what crying means.  
From all these dear old scenes.  
I've learned to laugh and how.

I hate to be sentimental  
That would make me feel  
I had failed in real  
And that would be detrimental.

A Senior is filled at the leave  
With a lot of queer ideas  
Which crawl around as fleas  
And leave the mind a sieve.

This all a Senior can say  
At the end of four short years  
That's all he's learned and fears  
That's all he'll learn anyway.

—Gladys Westwood, '39.

\*I did a little bit . . . anyway.

# JUNIOR CLASS

## HISTORY OF THE CLASS OF '40

We regret to say that we will soon be Seniors and our high school days will soon be over. We feel we can truthfully say that we have spent our days here in a profitable manner.

As Freshmen, our activities were limited and we could only sit back and learn from all the progress going on around us.

However, when we became Sophomores, several members of our class sprang into prominence, and the class as a whole was gradually becoming more important.

Now, as Juniors, we can gaze back triumphantly on the events of the past year with the realization that we played our part in them. Our first task was the election of officers. Having completed our initial task, we started on our Junior Assembly program. Following this, the Jam and Prom commanded our attention. In all our undertakings, the real value of the class advisors was easily seen. We cannot say that all our ventures were a success, but we feel that we have done our best.

We will soon be Seniors and then have only one more step to climb in the ladder of high school education. Falling back on our trials of the past and using the experience gained, we are sure that we will make this step without mishap.

EUGENE VAUGHT,  
President, Class of '40.

# SOPHOMORE CLASS

## HISTORY OF THE CLASS OF '41

As Sophomores, we, the class of '41 realize how much we have benefited from our years of experience at the Belleville Township High School.

This year our class elected the following officers: President, Gladys Wiskamp; Vice-President, Robert Glueck; Secretary-Treasurer, Donald Brandes. Our class also conducted two assembly programs, one before the Sophomore class, the other before a general assembly.

We are honored to have in our class several good musicians and athletes, who should go far.

Especially do we wish to extend our gratitude to the faculty who has given us excellent support and has helped to make these two years happy ones.

DONALD BRANDES  
Secretary-Treasurer,  
Class of '41.

# FRESHMAN CLASS

## HISTORY OF THE CLASS OF '42

Our freshman year is ended.

When we first entered the halls of B. T. H. S., confusion and fear were mingled with our excitement. We were much embarrassed the first few weeks because everything seemed so strange to us. When we became accustomed to our surroundings, things went more smoothly.

We hope that in the next three years, we will all remain together and co-operate with each other. We are looking forward to the day when we will finish the last lap of our journey through High School. We owe many thanks to our Principal, Mr. Schmidt, and to our teachers.

STATE. IT IS THE AMBITION OF  
THE COACHES TO HAVE THE QUAL-  
ITY OF OUR ATHLETICS IN KEEP-  
ING WITH THE EQUIPMENT.

# ATHLETIC DIRECTOR

F. J. FRIEDLI

Mr. Friedli, our genial and efficient athletic director, received his bachelor's degree at McKendree College and his master's degree at the University of Illinois. He was basketball and baseball coach until this year when the school board relieved him of the duties of coaching basketball and appointed him director of athletics.

Years of training and teaching experience, combined with a dash of good common sense, along with a willingness to co-operate with neighboring schools in promoting athletic activities and developing the principles of good sportsmanship, stamp him as an outstanding athletic director.

We congratulate Coach Tabor, Co-captains Gervig and Wagner,  
and the rest of this fine squad.

# MR. TABOR

"Tabe" has done it again! He coached the B. T. H. S. football team to the Conference Championship.

Victory comes not alone with the drilling of rules and plays, but also with the teaching of good sportsmanship, loyalty, and determination. Coach has done all this. The result: a winning team, and every boy a winner.

## BELLEVILLE, 25; SPARTA, 0

Opening their season against the Sparta Streaks, the Maroons presented a heavy team with seven returning lettermen from the co-conference championship team of the year before.

The Maroons had little difficulty in defeating the Sparta team, but the defense showed signs of needing more practice before the opening of the conference schedule.

The recovering of fumbles by Eddie Dahm and Allan Beverage accounted for the two touchdowns in the first period. Eddie Dahm made the first touchdown on a plunge from the three yard line and co-captain Virg Wagner did the same after passing to Walter Schmisseur, for 25 yards to place the ball in scoring position.

Passes accounted for the remaining touchdowns. Loraine Schlosser passed nine yards to Clyde Wiskamp for one and Eddie Dahm passed to co-captain Bud Gervig who ran 30 yards for the other. Eddie Dahm plunged the only extra point to make the final score 25 to 0.

## BELLEVILLE, 20; RITENOUR, 0

Compiling 17 firstdowns to their opponents 7 and completing 7 or 8 passes, the Maroons easily defeated Ritenour High School of St. Louis County. Although still showing need of more grooming before the opening of conference play, Belleville by virtue of this victory was the only undefeated, untied team in the conference at this point.

Walter Schmisseur stood out in the victory by scoring all three touchdowns and one of the extra points. The first touchdown was made over right tackle in the second period. The other two were on passes from Virg Wagner and Warren Wild in the third and fourth quarters, respectively. However, Coach Tabor's hope of starting the same eleven in the conference opener was marred by Lorraine Schlosser dislocating his elbow late in the second quarter.

## BELLEVILLE, 13; EDWARDSVILLE, 6

Belleville opened their conference schedule with a victory over a fighting Edwardsville aggregation playing without the services of their ace back, Co-captain Ed Henke. The score failed to indicate the superiority of the Maroons, who ran up 15 first downs to four for the Tigers and outrushed them 230 yards to fifty yards.

It was not until the Tigers had scored on a lateral from Gregor to Marks that the Maroons swung into action. Belleville completed its lone pass of the evening, Virg Wagner to Bud Gervig, and several plays later Wagner scored. Bud Schmisseur drove through for the extra point placing the Maroons in the lead. Wagner playing a brilliant game, scored again in the final stanza.

### BELLEVILLE, 6; GRANITE CITY, 0

Scoring ten first downs to one for the Granite City Warriors, the Maroons marched to their second straight Southwestern Conference victory. The six to nothing gave the Maroons a total of four victories against no defeats. The Maroon front line was particularly outstanding holding the Warriors to thirty-six yards by rushing while the Maroons were gaining one hundred and sixty yards.

The touchdown came on a pass from Virg Wagner to Bud Schmisseur. This drive started on the Granite thirty yard line where Clyde Wiskamp intercepted a Warrior forward. Using straight football the Maroons swept to the host's seven, where they were temporarily stopped by the heavy Granite line before Virg tossed the pass into the waiting arms of Bud for the lone tally and victory.

By virtue of this victory, Belleville went into a tie with the East St. Louis Flyers for the conference lead. The Flyers, winner over Madison, was to meet Granite City the next Friday while Belleville entertained the Madison team.

### BELLEVILLE, 24; MADISON, 0

By running to a four touchdown victory over the Madison Trojans, the Maroons held undisputed lead of the Southwestern Illinois Conference, East St. Louis went down to defeat under the passing attack of Granite City at the same time Belleville was chalking up its third league victory to give the Maroons their standing.

Madison threw a scare into the Maroon fans in the first quarter reaching the Maroons nineteen yard line before they lost the ball on downs. Bud Schmisseur entered the game at this point to lead the drive for the first touchdown in the second period. Bud carried the ball over for the touchdown. The second touchdown came in this same period with Virg Wagner carrying the ball across the zero stripe.

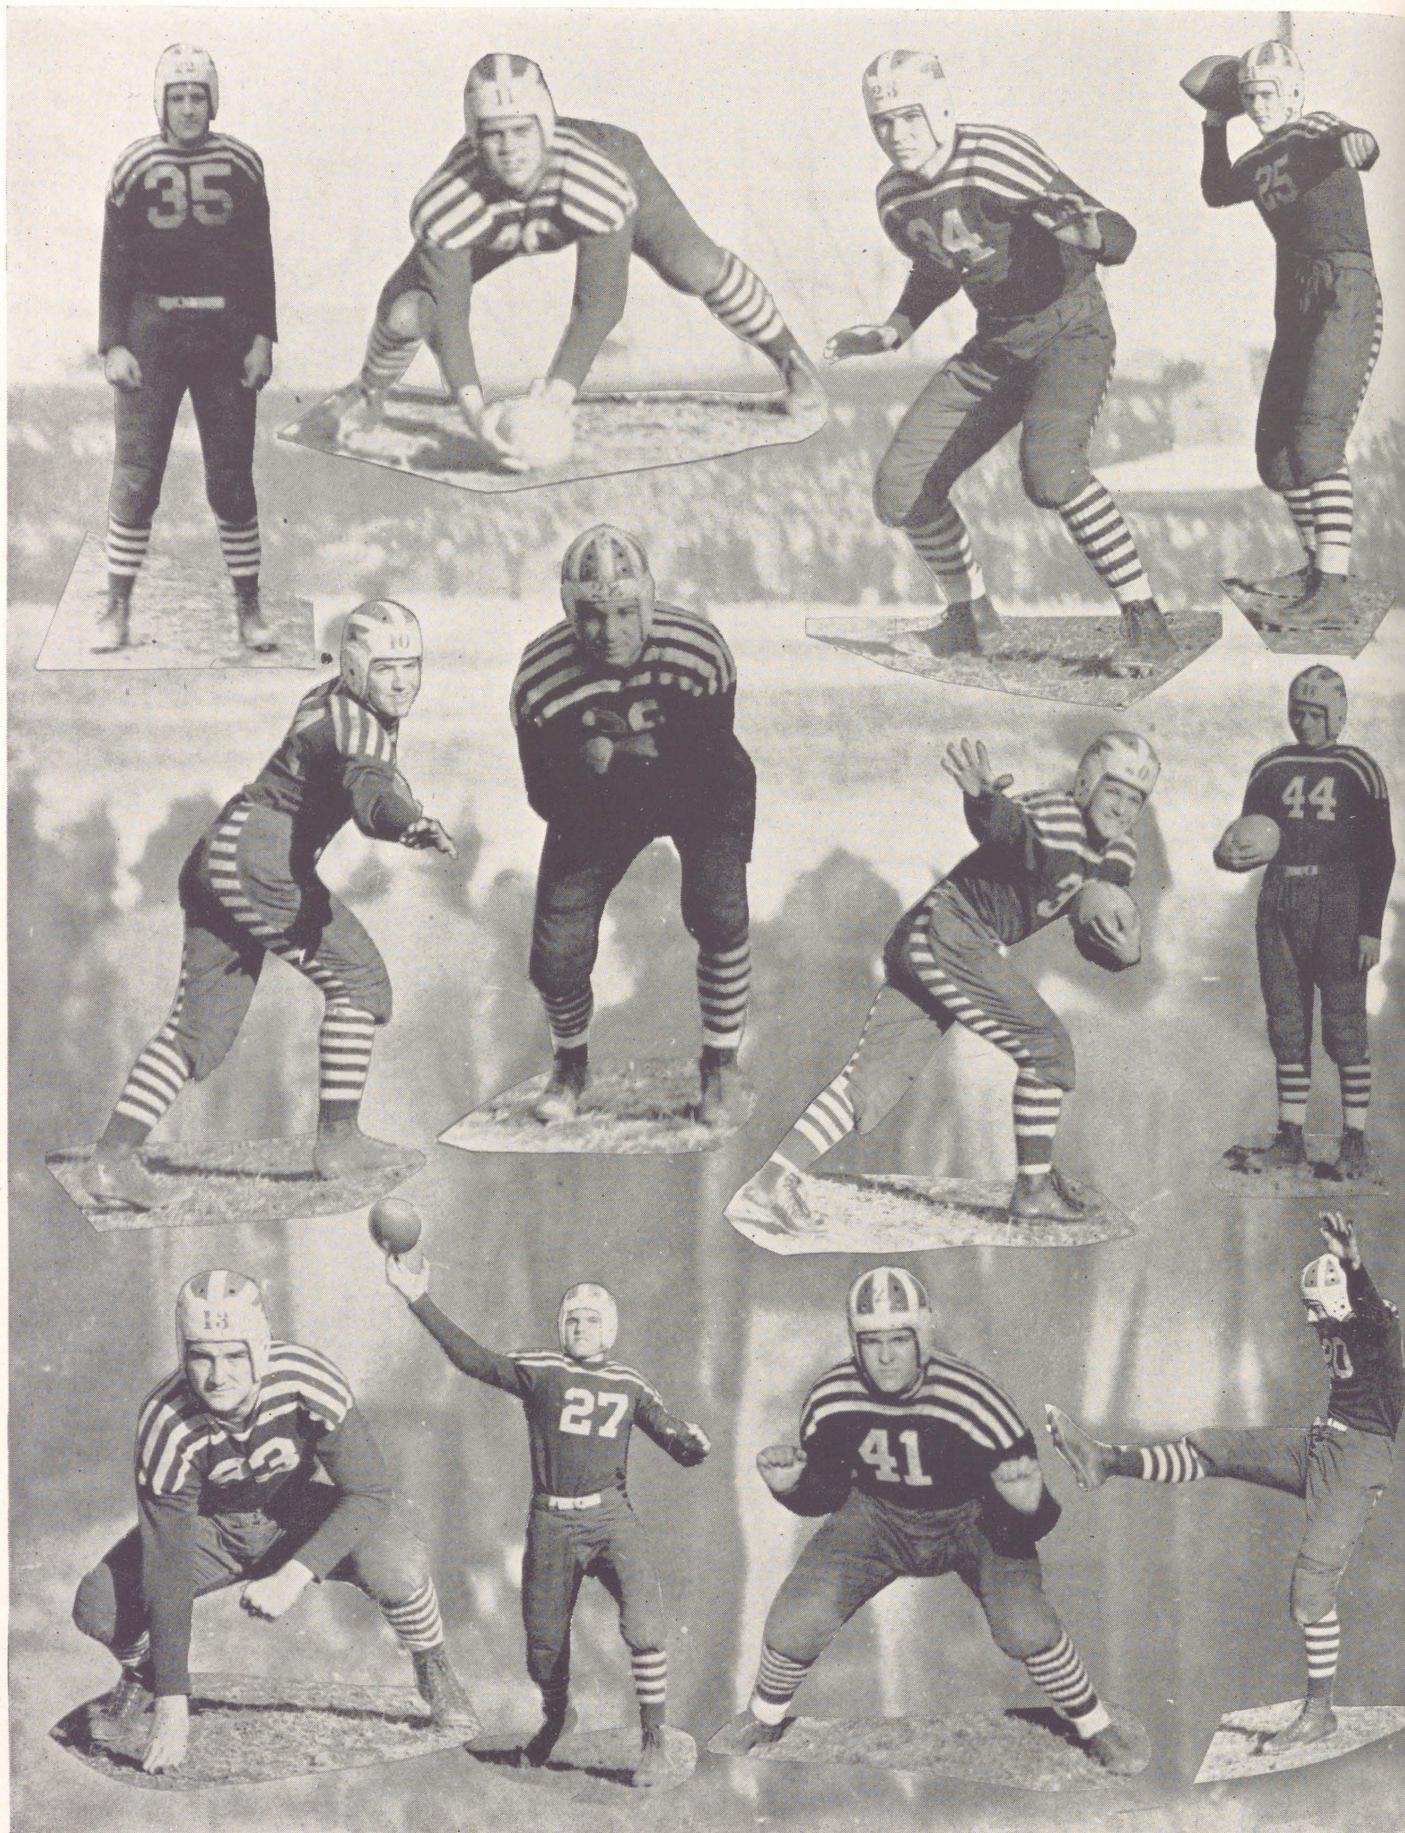

Belleville scored their final two touchdowns in the third period. Virg started off right tackle and cut back to thread his way twenty-five yards for one of these, while the other came on a pass interception by Elmer "Stonewall" Jackson. "Stoney" grabbed a Trojan aerial and tore twenty-three yards for the first touchdown of his career.

### BELLEVILLE, 31; COLLINSVILLE, 0

Playing the regulars less than half the game, the Maroons sailed to their fourth conference victory, thirty-one to nothing. While the Maroons were drubbing the Kahoks, the East Side Flyers received another set-back from the Alton Hilltoppers, Belleville's next foe.

Co-captain Wagner ran all over the Collinsville gridiron scoring three touchdowns. Two of them were on runs off tackle for twenty-five and twenty-four yards and the third on an end sweep for twenty-one yards. He then passed to Co-captain Gervig for the fourth tally. Eddie Dahm plunged the only extra point.

In Notre Dame fashion, Coach Tabor sent in eleven men three minutes before the end of the first half. These boys annexed the final touchdown in the fourth period on another pass. This time it was from Warren Wild to Ralph Groh. In this stanza the Maroon lineup was dotted with third stringers who still outplayed the Collinsville outfit. Belleville made a total of eight first downs to two for the Kahoks and one of these came as a result of a penalty.

## BELLEVILLE, 32; ALTON, 6

Thirty-two to six was the way the Maroons again asserted their superiority by trouncing the only team given an outside chance to stop them. Alton, however, presented one of the finest passing attacks seen at the Belleville Athletic Field this season in the second half of the contest.

Belleville marched to a touchdown from the opening kick-off with Eddie Dahm passing to Bud Gervig for the tally, and Virg Wagner plowed over for the extra point. Wagner then annexed the second touchdown after an Alton fumble had been recovered on the Hilltoppers twenty-six. Touchdown number three was again the result of a pass this time from Wagner to Clyde Wiskamp. Stew McCord then knocked the ball from the hands of an Alton passer into the hands of Bill Reichert who went to the Alton eleven. Wagner again carried the ball over. Eddie Dahm kicked his first successful placement for the extra point.

Wagner also scored the final six-pointer in the fourth period after he had placed the ball in scoring territory with a forty-four yard run. The invaders lone score came on a blocked punt in the third quarter with Harold Patterson falling on the ball in the end zone. On this same night, East St. Louis "came back" to cop a nineteen to nothing victory over Woodriver.

## BELLEVILLE, 14; WOODRIVER, 0

Conference Champs . . . for the second time in the history of the school the Belleville footballers reign undisputed champions of the Southwestern Illinois High School Conference. The Tabor-coached lads clinched their title with a fourteen to nothing victory win over a stubborn Woodriver Oiler squad. The last time any Maroon-clad eleven won the undisputed title was in 1929, and then last year they held the title jointly with East St. Louis.

The Maroons encountered unexpected resistance in the light Oiler squad, had to wait until the second period before being able to score. After Belleville had marched deep in Woodriver territory, they fumbled on the host's one foot line, losing the ball. On the next play with a strong wind blowing against them, the Oilers decided to ground the ball in the end zone giving the Maroons two points rather than running the risk of having a punt blocked.

In the second half, the Maroons playing without the services of Bud Schmisseur, who was on the sidelines with a leg injury, had to give up Virg Wagner also. Virg suffered a knee injury in the first half. Though it was not serious, Coach Tabor decided not to use him with a chance that the knee might be bumped again. However, with Ralph Groh, Sophomore back, ripping off several long gains, Stew McCord went over from the four-yard line.

In the final quarter, the Maroons tallied again, this time on a plunge by fullback Ed Dahm. In the Maroons' defensive play, Stew McCord and Bill Reichert were outstanding.

## BELLEVILLE, 32; CATHEDRAL, 0

Belleville gained possession of the city title and their ninth victory by running up thirty-two points against a game Crusader eleven. Although the game was easily won, Coach Tabor considered the playing of the Maroons below par. Lacking the fight and spark that marked their earlier games, the followers were definitely worried, not that they were thinking about the Cathedral game, but the following one—East Side.

Ralph Groh, Sophomore halfback, accounted for two of the touchdowns on a plunge and a pass from Bill Sanders; Virg Wagner added another touchdown to his already impressive list; Stew McCord skirted end for another; and Groh passed to Sanders for the final six pointer. Elmer Jackson place-kicked one of the extra points, while Groh accounted for the other on a plunge.

"Beat East Side" was the cry that went up for the next few days. Only twice had the Maroons ever been able to accomplish the trick, the most recent victory being in 1929. The night after Belleville's city championship, East Side accomplished the same trick in the Queen City defeating their city rivals, Central Catholic, by the same score as much as to say, "Belleville, here we come! We want Dutch meat!"

## BELLEVILLE, 21; EAST ST. LOUIS, 7

Before seven thousand people in the Belleville Athletic Field, the conference champion Maroons marched to an undefeated season, trampling the East Side Flyers in the dust, twenty-one to seven.

After a scoreless first quarter, the Tabormen had little difficulty in running roughshod over the Flyers. Co-captain Virg Wagner opened the scoring at the beginning of the second period by plunging two yards for a score. Virg plunged over another six pointer in the third quarter, then climaxed his day's work with another touchdown in the final period.

The other Belleville tallies came on a place kick by Eddie Dahm for an extra point, and Art Corn blocked Don Harpley's punt with Harpley recovering in the end zone for a safety. East St. Louis' markers came late in the game on a pass from Bob Downs to Harpley against the Belleville reserves. Harpley also accounted for the extra point on a pass from Jesse Fowler. The superiority of the Maroons was revealed in the statistics. Belleville made 13 first downs to East Side's two and gained over two hundred yards to less than fifty for East Side. This was Belleville's third victory in the twenty-three meetings of the two schools. East St. Louis has won eighteen of the contests while two of the tilts ended in ties.

Belleville received further honors when Bud Gervig, one hundred ninety pound end or tackle and co-captain, was chosen on three All-state selections. Wagner and Elmer Jackson also received mention on several of the mythical teams. Several banquets were held for the championship team. Hats off to Catch Tabor and the boys!

## BELLEVILLE, 22; MARISSA, 13

Coach Tabor made his debut as Maroon basketball coach most successfully as a strong Marissa team went down to defeat, 22 to 13. The tight zone defense of the Maroons had the Marissa offense completely bottled up during the entire game. Co-captain Virg Wagner led the Maroon scoring department with nine points.

## BELLEVILLE, 26; UNIVERSITY CITY, 20

By staging a third quarter rally the Maroons were able to cop their second non-conference contest. University City held a two point lead going into the second half, but Clyde Wiskamp found the basket frequently during the second half to give the Maroons a 26 to 20 victory.

## BELLEVILLE, 18; COLLINSVILLE, 26

With Levo Dallape dropping through eighteen points, the Collinsville Kahoks ran over the Maroons in the Southwestern Conference opener, 26 to 18. The game was very close for three quarters before Dallape went on his scoring spree. Co-captain Charley Heiser was high point man for the losers with three field goals and a foul toss.

## BELLEVILLE, 14; WOODRIVER, 17

Woodriver, defending champions of the Southwestern Conference, had a very difficult time in subduing the Maroons to come out on the long end of the 17 to 14 score. The Maroons had great difficulty in locating the basket. Eddie Dahm had one field goal and three charity tosses to lead the Maroon scorers.

## BELLEVILLE, 25; CATHEDRAL, 20

Bill Sanders hit three baskets in a row in the fourth quarter to give the Maroons a safe lead and the opportunity to coast on to a 25 to 20 win in the first game in the city championship series. The Maroons held a two point lead at the half, but the Crusaders tied the score as the game went into its final stages. Then Sanders led the Maroon rally.

## BELLEVILLE, 24; EAST ST. LOUIS, 29

An unexpectedly strong East St. Louis team turned back the Maroons, 29 to 24. The Maroons, playing their worst ball of the season, got off to a bad start and were never able to head the Flyers after the first few minutes of play. Al Burns of the East Side team, with thirteen points and Bill Sanders with eight, led their respective teams in scoring.

## BELLEVILLE, 25; ALTON, 16

Belleville annexed their first conference victory as they easily defeated the Alton Hilltoppers, 25 to 16. Coach Tabor employed only five players in the contest; all shared in the scoring with Virg Wagner garnering seven points to take the individual honors.

## BELLEVILLE, 27; GRANITE CITY, 34

In a game much more closely contested than the 34 to 27 score would indicate, the Granite City Happy Warriors beat the Maroons. Granite City was able to gain only a two point lead at half time and unable to pull away from the determined Maroons until the final minutes. Eddie Dahm and Charley Heiser led the Maroons.

## BELLEVILLE, 25; MADISON, 17

Belleville gained their second conference victory by downing the last place Madison Trojans, 25 to 17. Taking an early lead the Maroons ran up 15 points at the half to four for Madison. From there on the Maroons coasted to the victory with Clyde Wiskamp ringing up nine points.

## BELLEVILLE, 20; CATHEDRAL, 15

The Maroons gained the possession of the city basketball title as they defeated the Cathedral boys for the second time to make a clean sweep of the city series. Belleville led 3 to 2 at the end of the first quarter, increased their lead to 12 to 7 at half time, and then maintained that lead throughout the second half to come out the winner, 20 to 15. Eddie Dahm with seven points, led the scoring honors for the evening.

## BELLEVILLE, 23; EDWARDSVILLE, 31

Edwardsville, coming from behind, went on a scoring spree in the final periods to give the Maroons one of their worst defeats, 31 to 23. The Maroons led going into the second half, 15 to 11, but soon lost that lead as the Tigers started their barrage. Virg Wagner led the Maroons with eight points.

# BASKETBALL

## BELLEVILLE, 21; COLLINSVILLE, 23

With just two seconds to play, the Maroons were tied with the Collinsville Kahoks at 21-all, but two seconds later they had to be content with a 23 to 21 decision against them. With Clyde Wiskamp paving the way, the Maroons stayed right along with the Kahoks until the final seconds when Orville Heincke arched through a long shot from far out on the court to provide the margin of victory.

## BELLEVILLE, 19; WOODRIVER, 17

After the score had been tied at 17-all at the end of the regular playing time, Bill Sanders dropped through a long shot from the side to provide the margin of victory for the Maroons in the overtime period. Herschel Wild, playing his first game for Belleville, gave a very impressive performance.

## BELLEVILLE, 23; EAST ST. LOUIS, 13

Holding the Flyers to two free throws during the first half, the Maroons continued playing superior ball during the remainder of the game to get revenge for an earlier defeat. Herschel Wild and Clyde Wiskamp each garnered seven points for high point honors. The final score was 23 to 13.

## BELLEVILLE, 16; ALTON, 17

Dean Pinkerton's long shot with just eight seconds to go, netted Alton a one point victory over the Maroons. The Hilltoppers jumped into an early lead and managed to keep it until the final minute when Belleville forged ahead on Clyde Wiskamp's foul toss. A few seconds later Pinkerton made the winning basket.

## BELLEVILLE, 17; GRANITE CITY, 36

Granite City's Happy Warriors assured themselves of the championship of the Southwestern Conference by decisively defeating the Maroons, 36 to 17. With Andy Phillips and Bill Pufalt hitting four field goals each, the Warriors had an easy time gaining their eleventh conference victory in twelve starts.

# BASKETBALL

## BELLEVILLE, 37; MADISON, 26

Virg Wagner, Clyde Wiskamp, and Bill Sanders combined to score twenty-five points to net the Maroons their second victory over the last place Madison Trojans. Running up a lead of 20 to 9 at the half, the Maroons coasted to a 37 to 26 victory in the second half.

## BELLEVILLE, 26; EDWARDSVILLE, 34

Belleville dropped their final game of the regular season to the Edwardsville Tigers, 34 to 26. This defeat gave the Maroons a record of ten victories and ten losses for the season. In the Southwestern Conference the Maroons wound up in a tie for sixth place with five wins and nine losses. Ed Dahm was high point man of the game ringing up eleven points on two field goals and seven foul tosses.

## REGIONAL BASKETBALL TOURNAMENT at Belleville

Collinsville, 31; Marissa, 20.

Belleville, 41; New Athens, 23.

East St. Louis, 29; Dupo, 22.

O'Fallon, 44; Freeburg, 22.

### Semi-finals

Collinsville, 22; Belleville, 19.

East St. Louis, 43; O'Fallon, 29.

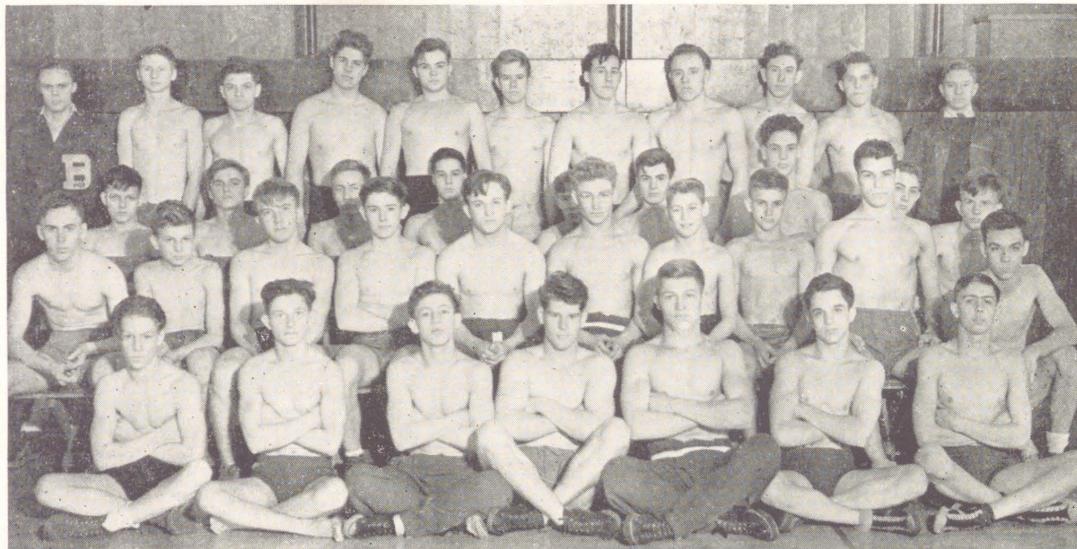

### Final

Collinsville, 26; East St. Louis, 20.

With Levo Dallape paving the way by scoring seventeen points, the Collinsville Kahoks conquered the East St. Louis Flyers to win the Regional Tournament crown.

Belleville advanced to the semi-finals after defeating New Athens. Bill Sanders dropped through six field goals and one charity toss to gain high point honors. The Maroons completed their season two nights later when they lost in the semi-finals to the Collinsville five. Wayne Groh with ten points led the scorers in this tight battle.

# WRESTLING

Front row: Rujawitz, Alley, Seib, Grissom, Jackson, Vaught, Bohnemeyer. 2nd row: Heely, Ogle, Kaiser, Hauss, McCord, Spacher, Oelrich, W. Miller, C. Cory, Kossman. 3rd row: Bonhardt, Wild, Lerch, Uhley, LePere, McGauey. Rear row: Weilmuenster, Dehn, Herzler, Beverage, E. Miller, J. Bechtold, Jordan, Kremmel, Wasem, Burns, L. Bechtold.

Co-captains Elmer "Stonewall" Jackson and Jack Kossman led the Maroon wrestlers to their most successful season since the sport was introduced in the school in 1936.

Four of Coach Rauth's wrestlers qualified for the state meet. Lowell Grissom and Bob Uhley lost their first matches, while Stew McCord was decisioned in the semi-finals.

Elmer Jackson went to the finals in the 165 pound class where he emerged as State Champion.

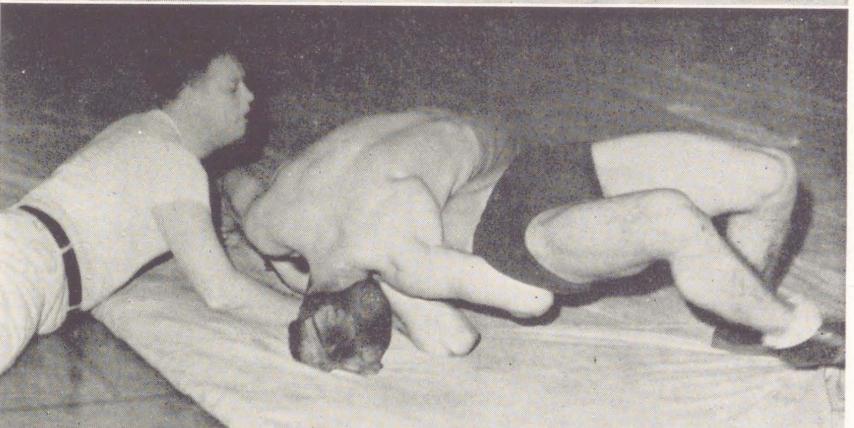

Who's who?

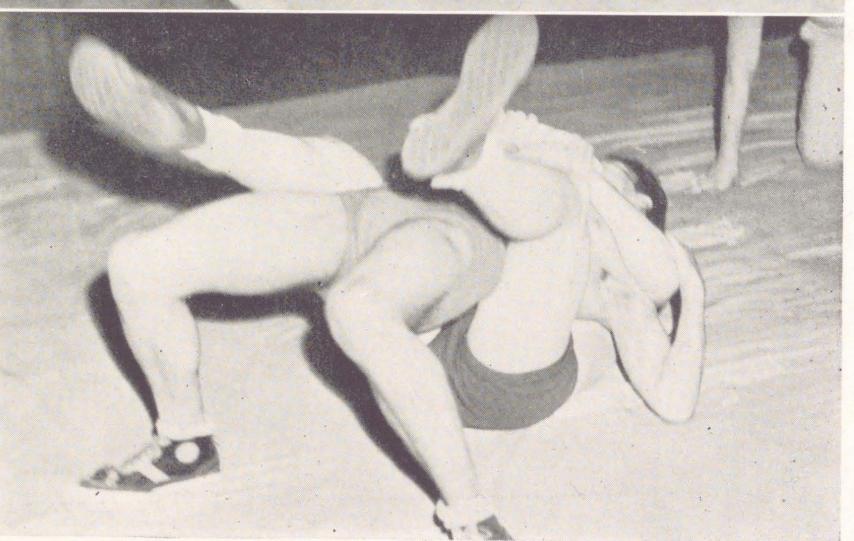

What's the verdict?

Could be!

Love affair!

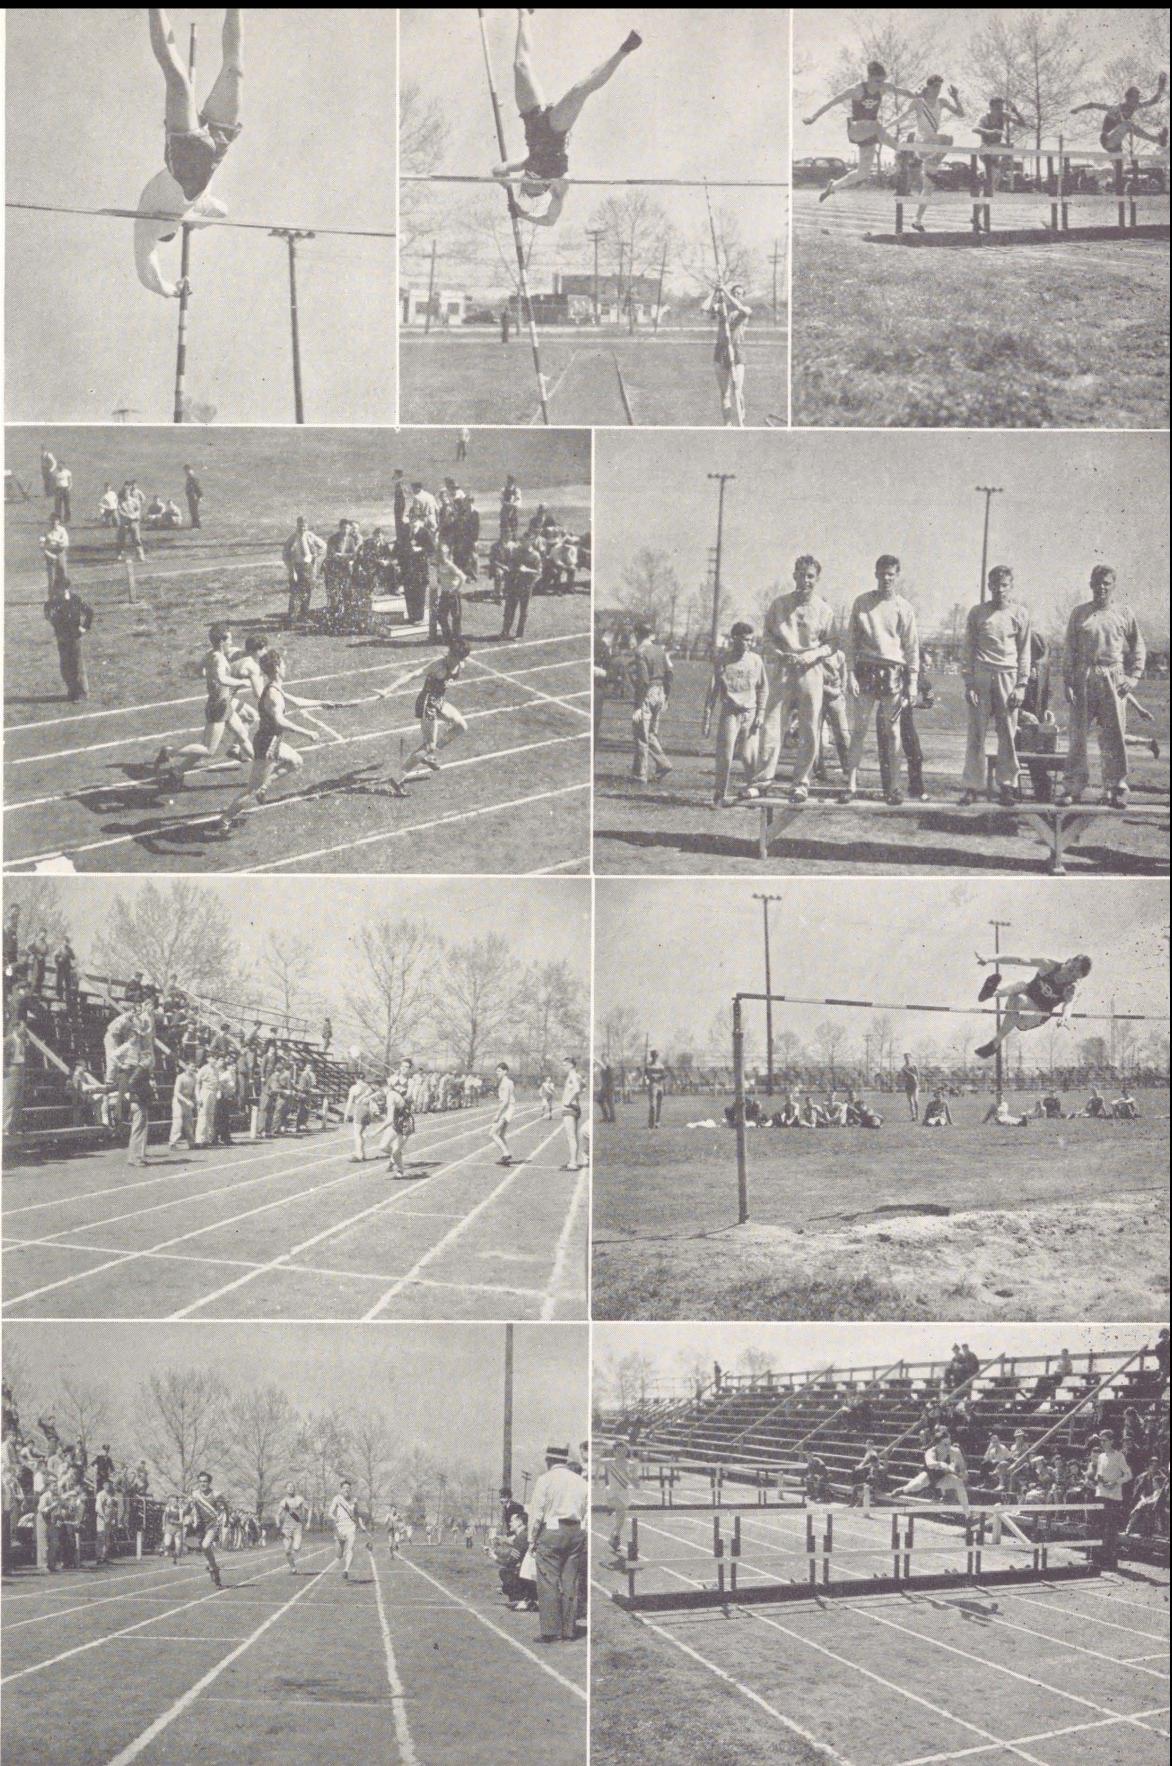

# TRACK

Front row: Madill Gartiser, Wilbur Feurer, Wilbur Klingenhagen, Lynn Krummrich, Bob Seib, Co-Capt. John Schell, Co-Capt. Bud Gervig, Virgil Wagner, David Rogier, Stewart McCord, Elmer Jackson. Center row: Coach Harpstreich, Lawrence Storman, Creighton Cory, Warren Wild, Ralph Groh, John Hickman, Norman Hargraves, Clyde Wiskamp, Edward Dahm, Bill Reichert, Charles Suppiger. Rear row: Raymond Gerfen, Norvel Seibel, Jim Seib, Donald Lerch, Kerrigan Cory, Edward Taylor, Earl Diehl, Donald Dehn, Warren Taylor, Robert Caesar, Eugene Vaught.

Ted Harpstreich in his first year as Maroon track and field coach, turned out an exceptionally strong and well balanced squad. The Maroons finished second in the Southwestern Conference Relays, and made a very impressive showing in the Herrin Relays.

Co-captains Bob Seib and John Schell along with Virg Wagner, Wilbur Klingenhagen and Bud Gervig, gave outstanding performances during the season.

# BASEBALL

Front row: Kenneth Mauerer, Lester Miller, Bill Reichert, Clyde Wiskamp, Virgil Wagner, Leroy Herzog, Edward Dahm, Ernst Miller. 2nd row: Bob Randell, Warren Taylor, John Cochrane, Gilbert Kombrink, Donald LePere, Bill Sanders, Ray Kassing, Calvin Isselhardt, Coach F. J. Friedli. 3rd row: Stewart McCord, Allen Beverage, Felix Wentz, Lorraine Schlosser, Joe Weik, Virgil Kopsky, John Mullet, Joe Lowry, Arthur Sullivan. Rear row: Bob Seib (manager), Buddy Caruso (manager), Richard Zog (manager), Herman Wamser, Richard Kaiser, Wallace Schesig, Lorraine Tieman, Don Pender, Kenneth Humphry.

Coach Friedli, as usual, turned out the strongest team in this part of the state. The Maroons composed a good hitting and fielding club.

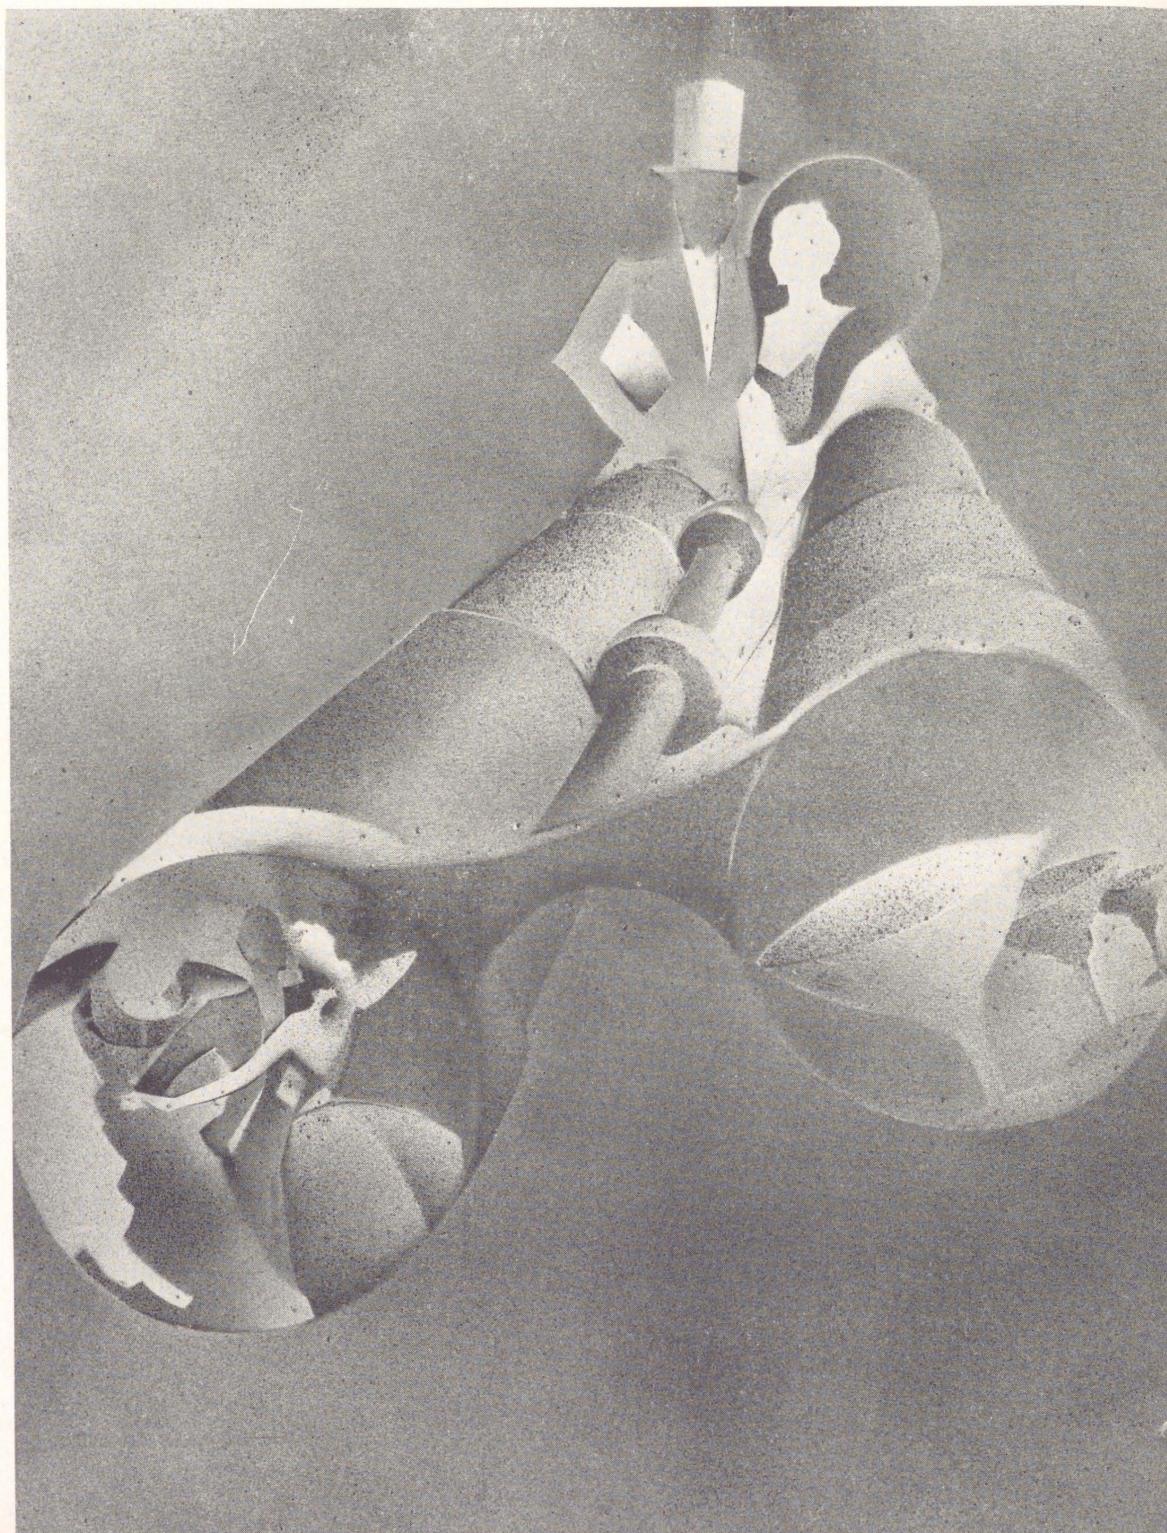

The hurling of Robert Randall is commendable. Randall, without much previous experience, turned in a good job for the Maroons throughout the season. Warren Taylor also showed up well on the mound.

15—Junior-Senior Prom. Usual hand-holding promenade around the sunken garden.  
16—Graduation—sighs and sobs.  
17—Rejuvination starts.

## ANY DAY AT B. T. H. S.

- 7:30 No one in sight . . . except Bill, yawning . . . he hasn't been up long either.  
8:00 Freshmen stream in.  
8:05 Here come the buses.  
8:10 First bell rings. Half the Seniors and Post-Grads aren't here yet. Dwight Schwesig bids a fond adieu to Jean Milstead.  
8:14½ Miss Petri dashes into the Library Building.  
8:15 Bell rings . . . Miss Petri manages to get one foot inside the door.  
8:16 Bill Farthing is asleep already.  
8:17 Audrey Marsh arrives at typing (when she goes).  
8:55 If you're in Rauth's class you're dozing..  
9:15 End of first round . . . and, "the crowd roars."  
9:20 Sleep resumed at sound of bell.  
10:20 Five minute period . . . Dwight looks for Jean.  
10:25 Third hour begins and Mr. Thorne calls his wife.  
10:30 Mr. Schmidt starts parolling.  
10:55 Miss Farmer looks at her watch, then starts for lunch. Unlike great surgeons she can't work on an empty stomach.  
11:00 Third hour lunch period begins! Everybody's looking for Mr. Fried'i. Don't ask why . . . somebody is always looking for him third hour because that's when he eats.  
11:40 Miss Jossem sends someone for her candy bar.  
11:25 The bell . . . Jean Wagner, Ruth Nold, Charlotte Walters, and Peggy Nelson stop playing bridge and finish their ice-cream in one gulp . . . general stampede in direction of cafeteria . . . Mr. Yarbrough goes on duty.  
11:30 Louis Soderho'm rushes into English class and begins work on his assignment.  
12:30 Miss Kircher ties her head carefully in a huge peasant scarf, puts on a pair of dark glasses, and conducts a class in archery. No bulls-eyes. She has to show them. Mr. Cross is an interested by-stander.  
12:35 Fifth hour really begins.  
12:45 No hamburgers left by this time.  
1:00 Margaret Julius is taking pictures of the boys. Quite a business . . . (gives them to anxious and love-sick girls) . . . Miss Brechnitz takes her usual walk around the drive. . . .  
1:35 That bell again and Allen Beverage frantically asks what the German assignment is because he has to have it by the time the bell rings again.  
1:40 Sixth hour. Steady drone mysteriously comes out of the windows of all buildings. Suspiciously like snoring.  
2:40 Bell wakes up teachers so they can dismiss class.  
2:45 The last hour begins . . . Mal hurries to Jerry . . . Jerry hurries to Mal . . . they miss each other . . . Mal's looking for Jerry . . . Jerry's looking for Mal . . . Mr. Thorne's looking for Geraldine . . . everybody finally ends up with everybody else in the Staff Room. Geraldine and Mal slip out. . . .  
3:40 Grand noise as students (?) gather together books and last minute gossip.  
3:41 Miss Jossem asks Miss (one of the teachers) if she (Miss Jossem) can ride home with her.  
3:44 Miss Fleischbein toots out of her room in the direction of Teacher's room.  
3:45 The final bell. . . .  
Dwight rushes to Jean.  
Great hilarity in Freshmen Alley as Janedarleen Thoma, Mary Ella Schmallensee, and Roselyn Schmallenberger get together. They are usually the last ones to leave.  
The cafeteria cooks rush for the last school bus . . . bus has to wait.  
Elaine Pender and Bob Seib sit on lawn.  
Bee-hive overflows—great babbling.  
Finally silence.

### DISSERTATION ON "TREES"

I think that I shall never see  
A boy who's half as nice as Lee  
He has a car and lots of money  
And always calls me his sweet honey  
A boy who may in summer wear  
A nest of ro . . . excuse it there  
A boy who neither smokes nor drinks  
Nor ever never even thinks  
He tells me jokes and makes me merry  
Without the help of a "Tom and Jerry"  
Poems are made by fools like me  
But no one else can kiss like he.

### ANSWER TO MAIDEN'S PRAYER AND "DISSERTATION ON 'TREES'" BY DOPEY

I think that you shall never see  
A boy who's half as nice as me  
I also have a car and money  
Am always willing to call you honey  
Of course I neither smoke nor drink  
And have you ever seen me think?  
I tell good jokes and make you merry  
Without the help of a "Tom and Jerry"  
All the girls that I take out  
Never have to sit and pout  
For I have kissed with the very best  
But if you're in doubt, just give me a test  
And not only that, I'm always true  
So I am sure I'm the only one for you.

## WHAT CAN YOU DO?

In applying for a position, your employer will be sure to ask this question.  
For instance:

Can you type accurately and with good speed?

Can you take dictation rapidly and transcribe your notes with ease and speed?

Can you operate a Comptometer?

Can you transcribe from the Ediphone?

Can you really keep partnership or corporation books?

Are you neat in your penmanship?

Are you familiar with postal rules and regulations?

Do you know how to handle the telephone?

In meeting strangers and visitors, are you at home and natural?

Do you like to work with people and do you find it easy to get along with them?

Why do so many young people fail to succeed in life? One of our greatest psychologists, Professor James, states the reason so many young people fail in life is because they have no definite aim. They do not know, themselves, what they want. Consequently, they are drifting, getting nowhere.

A complete business training in secretarial work, bookkeeping, office machines, and accounting will qualify you to fill a great many positions, especially as a bookkeeper, stenographer-bookkeeper, stenographer, or secretary.

We extend to the Belleville High School 1939 graduates and their parents a most cordial invitation to visit the Mound City College before enrolling.

Please Mr. Policeman have you seen a lady without a little girl that looks like me?

Mr. Thorne: Now Jackie, hold your shoulders back. You'd like to have a fine carriage when you're a young lady wouldn't you?

Jackie: Well I'd rather have a Reo like daddy's.

Now comes story of the epsom minded professor who rolled under the dresser and waited for his collar button to find him.

Mel. B: Did you miss your train?

Pete: (panting) No; I didn't like the looks of it so I chased it out of the station.

Knight V.: Just one more kiss dearest.

Ruth Ann: No dear we haven't time; daddy will be home in an hour.

Charles H.: Why didn't you answer my letter?

Gladys: I didn't get it, and besides I didn't like some of the things you said in it.
